Subject: Recommendation letter

I am using this opportunity to express my contentment to have been cooperating with your candidate, Dalibor Rodic. I would like to endorse Dalibor as well and recommend him as a serious candidate for the job position you announced.

I cooperated with Dalibor during April and May of 2015 during marketing internship program in the company BitLab Ltd, where I work as a CEO. Internship program was consisted of planned activities realization within following areas: customer relationships, social media marketing, improvement of ConfOrganiser.com system and creation of company's marketing campaign. Activities were implemented by interns and supervised by me as a mentor.

I would like to emphasize that Dalibor has shown exceptional skills during the internship, especially in area of planning and realization of promotion activities on social networks. He deserved, by showing his devotion, and by accomplishing assignments on time, to be highly recommended by the company BitLab Ltd. He has also conducted market research activities for the project of expanding the market share of the company on B&H web app market in the field of scientific events organization. Research results presented by Dalibor enabled us to make important decisions for the continuation of the mentioned project in a very fast, effective and easy manner.

In addition to all mentioned, Dalibor has shown that his theoretical knowledge gained during his studies can be easily applied in practice. He is characterized by high level of creativity and easy adaptation to work assignments.

Having in mind all previously stated, as a CEO of the company BitLab Ltd, I consider being competent to conclude that Dalibor is a candidate with high qualities and to recommend him.

dipl. ing. inf; dipl. oec. Branko Vasiljević
